LIZZIE RUNDLETT,

Treasurer W. R. C., No. 42, Epping, N. H.

REPORT OF HEALTH OFFICER

I herewith submit my report as health officer for the year ending January 31st, 1928.

At our last town meeting, the town voted to establish and install a new water system, which at the time of this report is nearly completed, the cost of the same being \$30,000.

The present Epping Water District voted to discontinue the system as soon as the town was ready to take it over, and gave to said town all their right, title, interest and equipment. It seems to me that the town of Epping has made one great step in the right direction. We should not stop, but continue in the good work, next look after our sewerage; this too means expense, but is it not worth while? The new water from driven wells was tested by the state and pronounced excellent.

By the assistance of Dr. A. W. Mitchell and the district nurse, the vaccination law has been enforced.

The only contagious diseases reported were measles and scarlet fever. I have repeatedly in my reports called the attention to the business men of the displaying goods to dirt and dust. If this continues in the future, action will be taken. Let us try to obey the laws.

In conclusion, I wish to congratulate the town of Epping upon the wise course they have taken by establishing a water system.

This in my opinion is one of our greatest assets and without doubt will be greatly enjoyed by all.

I also wish at this time to thank all who have in any way assisted me in performing my duties.

Respectfully,
 GEORGE A. GILMORE,
 Health Officer.
